

## Socioeconomics - Postdoctoral Fellow

The International Maize and Wheat Improvement Center (CIMMYT), is seeking an innovative, self-motivated, scientifically outstanding candidate for a postdoctoral fellow position in socioeconomics. The position is initially available for one year with an opportunity for an extension, but may lead to a career path position for an outstanding scientist. The position will be based in Nairobi, Kenya and working in countries of East and Southern Africa.

### We are seeking candidates with the following qualifications:

- ✓ PhD in agricultural or development economics or related field.
- ✓ Excellent skills to collect, manage and analyze qualitative and quantitative socio-economic data (PRA, RRA, household surveys, market surveys).
- ✓ Knowledge of farm household survey methods, and analytical capacity in econometrics and mathematical programming.
- ✓ Good writing and oral skills in English.
- ✓ Ability to work in multicultural teams.
- ✓ Preferably at least 2 years of pre / post PhD research in the region on maize farming systems.
- ✓ Regional languages (Eastern/Southern Africa in particular) an advantage.

### Principal Activities:

- ✓ Supervise participatory community surveys and ensure quality data collection.
- ✓ Assemble secondary data from farming systems and countries in the region.
- ✓ Supervise household survey data collection, entry and processing.
- ✓ Support national economists to process and analyse and report on survey data.
- ✓ Contribute to the development of scenario analyses and analytical, mathematical, economic or simulation analyses.

CIMMYT ([www.cimmyt.cgiar.org](http://www.cimmyt.cgiar.org)) is an internationally funded, non-profit research and training organization affiliated with the Consultative Group on International Agricultural Research (CGIAR, [www.cgiar.org](http://www.cgiar.org)) and has an annual budget of nearly US\$40 million. CIMMYT's mission is to help the poor in the developing world by increasing the productivity, profitability, and sustainability of maize- and wheat-based cropping systems while protecting natural resources. The Center is a global leader in scientific research and training related to maize and wheat, and in biotechnology, economics, and natural resource management research. These activities are conducted in partnership with national agricultural research systems, non-governmental organizations, and advanced research institutions, both public and private, in globally focused projects and programs. CIMMYT employs a staff of around 700 and operates in a decentralized, partnership mode, having staff in 14 countries, projects and partnership networks in many more.

CIMMYT salaries for internationally recruited staff are highly competitive, with a range of benefits including housing allowance, life and health insurance package, education allowance (from KG to Grade 12), annual medical examination, and shipping allowance.

*CIMMYT is an equal-opportunity employer and strives for staff diversity in gender and nationality.*
